

IntegraMed™ Shared Risk® Refund Program Egg Donor Recipient

Successful infertility treatment means having a baby. Patients willing to commit to multiple IVF cycles can dramatically increase their chances of getting what they want - a baby. The reality is that most patients will need more than one IVF cycle to be successful. The affordability of multi-cycle treatment, combined with the commitment of those who enroll has contributed to the high success rate of patients within the IntegraMed Shared Risk Refund Program. **In fact, nearly 75% of the patients enrolled in the program take a baby home!**

The IntegraMed Shared Risk Refund Program **maximizes your chances of success with IVF** through a 6-cycle treatment package. You can give IVF the best possible chance, while preserving your financial resources for other family building options should IVF fail. **The program minimizes your financial risk by fixing the cost of treatment AND providing a 100% refund if treatment is not successful.**

Treatment	Fee
IVF with donor (includes ICSI)	\$13,600
IVF with donor (includes ICSI) excluding Recipient Monitoring	\$11,300

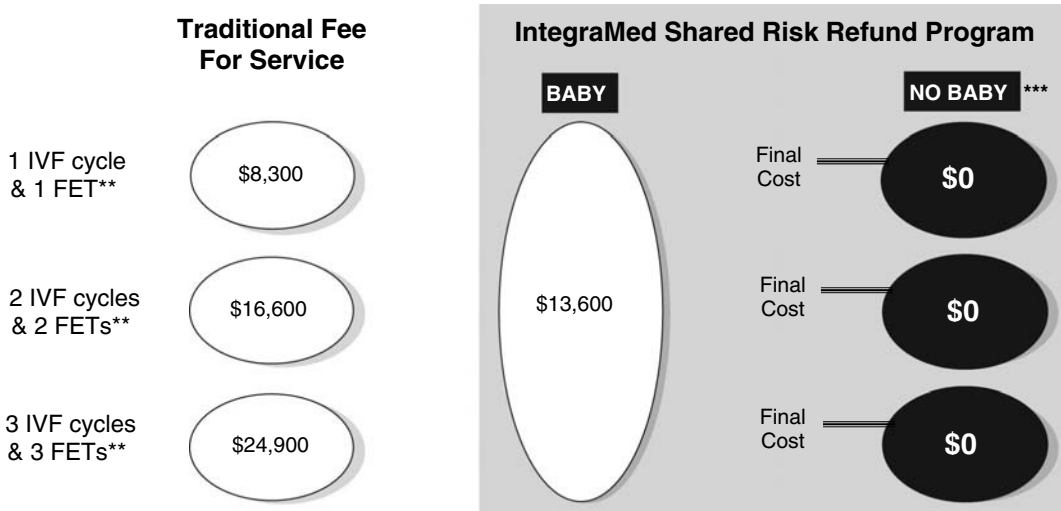

+ Must receive Monitoring services from an authorized facility to qualify for program.

Costs *not* included in IntegraMed Shared Risk Refund Fee:

- | | |
|---|--|
| <ul style="list-style-type: none"> • IVF pre-screening tests • Blast culture and Assisted Hatching • Non IVF surgeries | <ul style="list-style-type: none"> • Medications and Anesthesia services • Recruitment and screening costs, and donor fees • Cryopreservation and storage of excess embryos |
|---|--|

Acceptance into the IntegraMed Shared Risk Refund Program is at the sole and subjective discretion of IntegraMed and may not be an indication of a couple's chance of success with IVF. The determination of IntegraMed is final. Pricing effective 05/25/2006. All prices are subject to change.

Costs of Traditional Fee for Service vs. IntegraMed Shared Risk Refund Program*

*Example based on couples completing a donor IVF cycle, which costs \$6,800 and a FET cycle, which costs \$1,500. Costs and money "at risk" vary depending on additional treatments.

** Some couples may not have frozen embryos to transfer after completing a stimulated cycle within the program.

*** Withdrawal from program or not pregnant after completion of program.

Find out if you qualify for the IntegraMed Shared Risk Refund Program today! There is no cost or obligation to see if you qualify.
